Professional Summary

- Ambitious Full Stack Developer with strong foundations in modern web technologies and a proven track record of building scalable applications. Experienced in both frontend and backend development, with particular expertise in TypeScript, React.js, and Node.js. Demonstrated ability to work in team environments and deliver high-quality code. Seeking to leverage my technical skills and passion for innovation in a dynamic full-stack development role.

Core Technical Competencies

Frontend Development: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend Technologies: Node.js, NestJS, Express.js, RESTful APIs, WebSocket

Database & ORM: PostgreSQL, Prisma, SQL

Development Tools: Git, Docker, Agile Methodology, VS Code

Testing: Jest, React Testing Library, Unit Testing

Soft Skills: Team Collaboration, Problem-Solving, Quick Learning, Communication

Professional Experience

Full Stack Developer

December 2023 – Present

Lendstack Inc.

Remote

- Architected and implemented full-stack web applications using TypeScript, React, and Node.js
- Developed and maintained RESTful APIs serving over 100,000 users
- Collaborated with cross-functional teams to deliver features on schedule
- Implemented responsive designs and optimized application performance

Featured Projects

SpinShot - Multiplayer Gaming Platform

2023

Full Stack Application

TypeScript, NestJS, PostgreSQL

- Built a real-time multiplayer gaming platform using NestJS and PostgreSQL
- Implemented secure user authentication and real-time game mechanics
- Designed responsive UI components using modern frontend technologies

React Wordle Clone

2023

Frontend Development

React.js, JavaScript, CSS

- Developed an interactive word puzzle game using React.js and modern JavaScript features
- Implemented complex game logic for letter validation and color-coded feedback system
- Created responsive UI with smooth animations and keyboard support for enhanced user experience

Inception - DevOps Infrastructure

2023

Infrastructure Project

Docker, NGINX

- Designed and implemented a containerized web infrastructure using Docker
- Created custom Docker configurations for various web services
- Implemented secure networking and automated deployment processes

Education

1337 School - 42 Network

2021 – Present

Advanced Software Engineering Program

Khouribga, Morocco

- Specialized in full-stack web development and software architecture
- Completed intensive peer-to-peer learning program focusing on practical programming skills
- Developed strong problem-solving abilities through project-based learning

Languages & Interests

- Languages: English (Professional), French (Professional), Arabic (Native)
- Interests: Open Source Development, Tech Community Involvement, Continuous Learning
